

Deltaform Wrist Brace

The Deltaform Wrist Brace offers support, compression and stabilisation. It's made from a special elasticated cotton and features a rigid aluminium bar for extra stabilisation and support. The gentle compression provided by the elastic helps to reduce swelling and assists with the natural healing process.

The simple hook loop fastening, which fastens securely to provide a personalised fit and easy application.

Provides wrist and thumb support for an array of injuries, conditions, pre-and post-operations such as:

- + Arthritis
- + Sprains and strains
- + Soft tissue injuries and conditions
- + Instability
- + Post fracture management
- + Inflamed/swollen tendons
